INSTRUMENT TITLE: Artemis Intake Questionnaire (AIQ)

SOURCE ARTICLE: Strauchler, O., McCloskey, K., Malloy, K., Sitaker, M., Grigsby, N., & Gillig, P. (2004). Humiliation, manipulation, and control: Evidence of centrality in domestic violence against an adult partner. *Journal of Family Violence, 19*(6), 339-346.

POPULATION: Clients who contacted a domestic violence victims' advocacy center

RESPONSE OPTIONS: Endorsing an item (see attached items) with a check was considered a "yes" and leaving it blank was considered a "no."

SCORING: N/A

SURVEY ITEMS: This instrument has already been formatted by the author. Please see attached

RELIABILITY INFORMATION: N/A

VALIDITY INFORMATION: Factor structure was tested and results revealed a seven-factor solution.

TERMS OF USE:

Individuals may use this information for research or educational purposes only and may not use this information for commercial purposes. When using this instrument, please cite:
