

UNC CFAR Social and Behavioral Science Research Core SABI Database

INSTRUMENT TITLE: *Self-Efficacy for Limiting HIV Risk Behaviors (LHRB)*

SOURCE ARTICLE: Smith, K. W., McGraw, S. A., Costa, L. A., & McKinlay, J. B. (1996). A self-efficacy scale for HIV risk behaviors: Development and evaluation. *AIDS Education and Prevention*, 8(2), 97-105.

RESPONSE OPTIONS: 1 = Not sure at all to 5 = Very sure

SURVEY ITEMS: Now I want to ask you about how sure you are that you could do certain things. As I read each question, tell me which number on this card indicates how sure you are:

How sure are you that you could....

1. Talk about safe sex with a casual partner?
2. Buy condoms in a drug store?
3. Refuse to have sex with someone you don't know very well?
4. Use a condom correctly if your partner wanted to?
5. Refuse to shoot up drugs if your friends asked you to shoot with them?
6. Convince a partner that he or she should use a condom?
7. Prevent a partner from having anal sex with you?
8. Ask a partner about his or her other sexual partners?
9. Refuse to use a needle that had already been used by a friend?

TERMS OF USE:

Individuals may use this information for research or educational purposes only and may not use this information for commercial purposes. When using this instrument, please cite:
